

CMMC Symposium 2023 in Molecular Medicine

September 18 - 20, 2023 in Cologne

CMMC CENTER FOR MOLECULAR MEDICINE COLOGNE

From Concepts to Clinic: A New Era of Nucleic Acid Therapeutics

Annemieke Aartsma-Rus Leiden, NL

Manuel Etzkorn Düsseldorf, DE

Richard S Finkel Memphis, US

Sam I Gunderson Piscataway, US

Nagy Habib London, GB

Amanda Hargrove Durham, US

Matthias Hentze Heidelberg, DE

Donald Hilvert Zurich, CH

Claudia Höbartner Würzburg, DE

Veit Hornung Munich, DE

Andres Jäschke Heidelberg, DE

Ailong Ke Ithaca, US

Mano Manoharan Cambridge, US

Andrea Rentmeister Münster, DE

Gerald Schwank Zurich, CH

Jacob S Sherkow Urbana-Champaign, US

Molly Stevens London, GB

Markus Stoffel Zurich, CH

Bruce A Sullenger Durham, US

Maurice S Swanson Gainesville, US

Sarah Tabrizi London, GB

Akshay Vaishnav Cambridge, US

Mathias Vormehr Mainz, DE

Man-Fung Yuen Hong Kong, HK

Topics

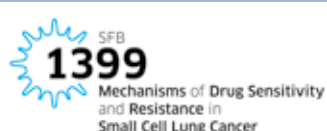

- Nucleic Acid Chemistry (Innate Immunity)
- Nucleic Acids Delivery and Visualization
- Technology and future applications (e.g. mRNAs, ncRNAs)
- Technology and applications development (e.g. Aptamers, RNAi, snRNAs, ASO)
- CRISPR and RNA-protein interaction and modulation
- Preclinical and Clinical Application

Scientific Coordination:

Markus Stoffel Zurich, CH • Michal R Schweiger Cologne, DE • Roman-Ulrich Müller Cologne, DE

Program and information:
www.cmmc-uni-koeln.de

Participation and registration free of charge

Juni 2023
